

DXRmkII Series

NEW PRODUCT RELEASE

YAMAHA INGENUITY AND NEXO EXPERTISE COMBINE FOR A NEW LINEUP OF DXR POWERED SPEAKERS

The DXR Series mkII powered loudspeakers are newly upgraded models that add even more SPL and feature a larger, yet much lighter 1.75" Neodymium HF compression driver for extremely clear voice reproduction and musicality. Once again our team worked in tight collaboration with touring loudspeaker specialists NEXO, adding crucial insight and expertise that led to design improvements based on the ever-evolving demands of sound reinforcement professionals.

- Improved Custom Designed Transducer — larger and more accurate 1.75" neodymium voice coil
- HF compression driver High Efficiency 1,100W Class-D Amplifiers
- Ultra-Precise 48bit DSP Processing for High-Definition Sound- FIR-X Tuning
- Intelligent Dynamic Control for Consistent Clarity at Any Output Level
- Intelligent Onboard 3-Channel Mixer
- Rigging Points for Standard Eye-Bolts and Optional U-Brackets
